Education

Stevens Institute of Technology (Hoboken, NJ)

Sep 2024 - Expected May 2028 (or 2027)

- Bachelor's in Computer Science - Schaefer School of Engineering and Science - Co-op - Dean's List
 - Relevant coursework: Systems Programming, Natural Language Processing, Database Management Systems, Computer Architecture & Organization, Discrete Structures, Linear Algebra, Intro to Entrepreneurial Thinking, Software Development process, Macroeconomics
-

Experience

Assistant Manager & Data Analyst, DuckCard Office | Stevens Institute of Technology (Hoboken, NJ)

Oct 2024 - Present

- Led cross-functional collaboration with Residential, Dining, IT, and Summer Program departments to streamline the onboarding process for 3,000+ pre-college, summer program, international, graduate, and undergraduate students each summer.
- Oversaw the main operations of the office, including managing schedules, training new employees, organizing information, meetings, creating flyers, video and document tutorials, mass emails, managed and responded to email inboxes, communicated with featured merchants in the Hoboken area, and edited our DuckCard office website.
- Steered summer program logistics including payment management, financial compliance, card status reports for incoming students in pre-college and summer programs as well as hosting troubleshooting sessions.
- Designed and executed a technical contingency plan when our reporting system failed mid-summer, implementing alternative data workflows to ensure up-to-date accurate reporting for thousands of students while the system was down.
- Engineered Python scripts for analyzing large databases with our reporting system using pandas as well as one for scheduling the incoming students working in the fall semester.

Summer Camp Counselor | Guttenberg Recreation Center (Guttenberg, NJ)

Jul 2024 - Aug 2024

- Provided a safe and fun environment through collaborating with my other counselors over the course of the 6 week camp.
- Supervised a class of 30+ eight-year-old campers, often collaborating with staff and other counselors in activities such as arts and crafts, pool days, park trips, outdoor play, movies, and more.

Summer Intern | Khayyan Specialty Foods (West New York, NJ)

Jun 2022 - Aug 2022 & Jun 2023 - Aug 2023

- Created email campaigns to promote online products, fulfilled online orders and kept track of them, applied my knowledge of Excel to help them with client databases by sorting and cleaning up information.
 - Programmed a PyAutoGUI program to make additions to hundreds of products automatically, making the process streamlined.
-

Projects

Ultramerge | DuckCard Office

Jul 2025

- Developed a custom application to simplify weekly student ID analysis using my prior programming experience in Python with pandas and customtkinter to make a comprehensive GUI (graphical user interface) that could be used by anyone in the office.
- Through a test-driven development, the program ended up accelerating analysis time by 5x and ensured data integrity with 100% accuracy, enabling other coworkers to perform complex data tasks quickly.

CommuteLock | Intro to Entrepreneurial Thinking Project

Jan 2024 - May 2024

- Developed a full-stack solution for "CommuteLock", a smart lock that deters bike and scooter theft with an integrated alarm system. The project included a companion mobile app and a feature to alert campus police in case of theft.
 - Built the website (HTML, CSS, and JS) and the companion mobile app (React Native) in a 3-person team, communicating clearly and effectively to meet milestones and deliverables while leveraging GitHub Copilot for rapid learning and development.
 - Produced a complete working demo with an explainer video (Davinci Resolve).
-

Awards & Certifications

- | | |
|--|----------|
